

BGE VR Training Application

BGE Underground | Ryan Smith & Ryan Klebe

Confidential Information – For Internal Use Only

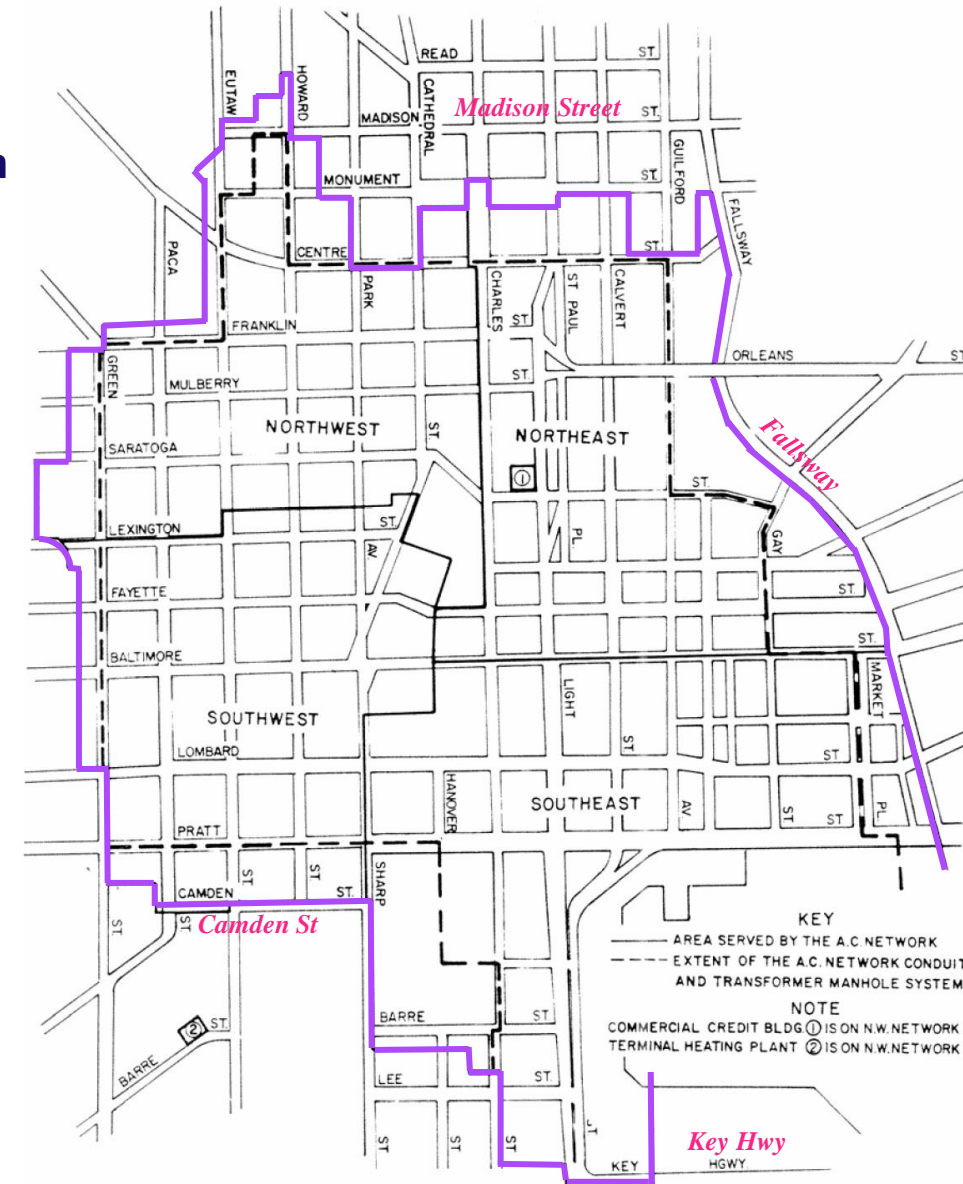

Exelon/BGE Overview

Exelon is the nation's largest utility company, serving more than 10 million customers through six fully regulated transmission and distribution utilities including Baltimore Gas and Electric (BGE)

BGE is America's oldest Utility Company, based in Baltimore, Maryland. We serve more than 1.3 million customers in Central Maryland, a territory of 2300 square miles and approximately 16,000 miles of Underground Cable.

For over 100 years, BGE has served the bulk of the downtown Baltimore business district through network systems.

- 306 Network Transformers
- 2 substations
- 18 feeders
- Both Spot and Street Networks

BGE's AC Network system was historically managed by a small number of specialized crews. We had limited knowledge transfer opportunities and training programs to support employee development/transitions.
